Internships

Unilever, Marketing Intern Beijing, CHN | 08.2025-10.2025

- **Market Data Insights:** Conducted retrospective analysis of the air purifier category; cleaned and analyzed sales data from Tmall and JD platforms using Python, tracked pricing and feature trends of competing products, and delivered structured insight reports;
- **Product Concept Incubation:** Led preliminary research for a "purification + fragrance two-in-one" new product, identifying user pain points through questionnaires and interviews, proposing a "solid fragrance sheet" alternative solution, and developing a product concept communication framework;
- **Precise User Positioning:** Combined e-commerce review analysis and qualitative interviews to deeply explore consumer pain points, accurately identifying the target customer group's acceptable price range and design preferences, providing a decision-making basis for subsequent product pricing, positioning, and GTM strategies;
- **Cross-Channel Content Strategy:** Responsible for building the new product's social media content matrix, customizing diverse content from education to recommendation based on platform characteristics of Xiaohongshu, Weibo, and Zhihu, boosting product exposure and engagement willingness;

Beijing Lesitech Science and Technology Co., Ltd.

Beijing, CHN | 07.2024-09.2024

Operations Department, Information Flow Ads Specialist

- **Quality Assessment:** Reviewed series content, analyzed genre popularity, and predicted user payment willingness, identifying new drama resources with high growth potential; produced relevant reports, providing data-driven decision support for prioritized promotions; evaluated 100+ new drama series and identified 18 for inclusion in the high-priority promotion portfolio;
- **Parameter Control:** Configured time-partitioned delivery schedules, made tiered bidding strategies, defined per-episode pricing and series purchase templates, and identified core user tags; maintained real-time account monitoring with proactive alerts for anomalous fluctuations;
- **Outcomes:** 1) Upgraded the series purchase package to ¥188/¥199 and raised the per-episode price to ¥5.0; leveraged ARPPU data from previous campaign cycles to tailor customized bidding strategies for each series; designed distinct approaches for high-budget accounts (emphasizing ROI stability) and low-budget accounts (focused on traffic testing); 2) Total expenditure in July amounted to RMB 735.4 thousand; after implementing the enhanced strategy in August, the highest single-day spend reached RMB 156.9 thousand, and the monthly total climbed to RMB 1,477.8 thousand (a month-on-month increase of 101%), while ROI consistently remained above 1.0;

Huashang Newspaper, Xi'an, Shaanxi Province

Beijing, CHN | 07.2023-08.2023

Influence Expansion Center, Intern Reporter

- **Field Interview:** Following the newspaper's social & livelihood news department, conducted frontline field interviews, recording crucial information on-site through photography, audio recording, and videography to preserve evidence; after completing interviews, independently drafted news articles that were published on the Huashang News official website following revisions by my mentoring editor;
- **Article Writing:** Conducted over 30 online and offline interviews and produced 18 news articles, including 2 to 3 independently authored pieces, with content spanning public service initiatives and community developments and articles maintaining an average review pass rate exceeding 90%;
- **Outcomes:** 1) Led interviews with over 10 students defrauded by the "training loan" scheme at Tang Yan Film and Television Co., Ltd.; coordinated with relevant regulatory authorities, conducted talks with the company's executives, and consulted with well-known lawyers; integrated information from multiple sources to form a logically complete investigative content and ultimately completed one full-page in-depth report, which garnered nearly a thousand views on the official website of Huashang Daily; 2) Within two to three weeks of the report's publication, relevant regulatory authorities launched a formal investigation, which led to the full reimbursement of affected students' losses and the complete cessation of the involved company's business operations;

Projects

SecHome - Incubation of a Second - hand Transaction Platform for

Washington, USA | 08.2025-10.2025

International Students, Personal Project

- **Project Overview:** Led the entire process from user insight, product concept definition to 上市 strategy planning, solving the core pain points of information asymmetry and lack of trust in the campus second - hand transaction market.
- **Project Responsibilities:** 1) Designed and executed user research, combining qualitative and quantitative methods to accurately identify the portraits and pain points of three types of core users; 2) Based on user insights, defined the product's core value proposition and formulated the MVP function priority matrix; 3) Completed the competitive landscape analysis to clarify the differentiated positioning; 4) Developed an integrated launch strategy with campus channels as the core and social media as the lever, planning the complete user acquisition path from channel access, content communication to landing page conversion;

"Insomnia Killer" Smart Pillow New Product Development Project,
Personal Project

Washington, USA | 08.2025-10.2025

- **Project Overview:** Led the entire process from market feasibility analysis, consumer segmentation to product concept implementation, incubating a smart pillow featuring adjustable height and antibacterial material from scratch, fully implementing the typical new product development process in the FMCG industry;
- **Project Responsibilities:** 1) Applied the Top - Down (TAM - SAM - SOM) and Bottom - Up dual - path models to evaluate market potential, comprehensively integrating industry reports, retail data and user research to quantitatively evaluate the size and penetration potential of the target market; 2) Designed and conducted questionnaires and user interviews; 3) Established a competitor database to compare functions, prices and user reviews; 4) Participated in formulating the first - round launch strategy with DTC channel testing, KOL cooperation and enterprise - institution health plans as the core;

Research on the Communication Strategy of Popular Micro - dramas
Starring Middle - aged and Elderly People, Personal Project

Beijing, CHN | 12.2024-02.2025

- **Project Overview:** The project entailed a systematic deconstruction of the content characteristics and dissemination logic of micro-dramas, diagnosing existing industry issues and proposing optimization strategies;
- **Project Responsibilities:** 1) Built a multi-dimensional sample library by selecting 30+ mid-to-older-aged actor-led works from Douyin's "2024 Hot Short Drama List" and Tencent Video's micro-drama section, compiling core data including single-platform view counts, audience demographics, thematic genres, and dissemination channels; 2) Conducted characteristic analysis using textual analysis to identify three core themes: "Resolution of Family Conflicts," "Pursuit of Mid-to-Older-Aged Romance," and "Self-Actualization in Later Life," while summarizing binary character models for male and female leads; through comparative analysis of 20+ works, identified three key issues: content homogenization, limited dissemination channels, and constraints in commercial monetization;

Campus Experience

Beijing Language and Culture University, Convergence Media Center
Editorial Department, Director

Beijing, CHN | 09.2021-12.2021

- **WeChat Official Account Operations:** Handled core operations of the college's WeChat official account "Voice of BLCU Humanities;" participated in the end-to-end production of over 15 publications, including material gathering, content strategy, and final typesetting, etc., with a 100% approval rate for all submitted drafts;
- **Special Project Planning:** Focusing on key commemorative events and policy-oriented topics, employed the Xiumi layout tool to design content pages, exemplified by the National Memorial Day feature, where the visual style was adapted to a "solemn remembrance" theme, with content framework planning completed one week ahead of schedule; the 20th CPC National Congress-themed publications integrated interview videos of faculty and students discussing the Congress's significance, along with visual explanations of key policy points, effectively moving beyond text-only formats to enhance engagement;
- **Value Realization:** Maintained a consistent readership range of 1,000-2,000 per article, covering over 80% of the faculty and students and 30% of alumni; the feature on the 20th CPC National Congress alone achieved 1,800+ reads, ranking as the highest-performing content during that period;

Skills Summary

Languages: Chinese (native) and English (proficient, CET-6 & IELTS-6.5);

Computer Skills: Microsoft Office, Adobe Photoshop, Adobe Premiere, Xiumi, Xingtu, and CapCut.
